Stretcher

Mrdpet carries a variety of stretchers, for safely lifting, transporting and protecting pets. Our product is an assembly with a built-in handle. They are shipped flat for easy storage and can be reusable as long as it stays clean. They are a perfect size for dogs and cats and commonly used in emergency or after surgery. They are easy to use and the straps are adjustable. Ideal for pets that are injured. Find stretchers without wheels which allows carrying patients through tight corners and ones with wheels making it easier for just one person to move the patient.

ergonomic handle

The pet transport stretcher is a simple and secure way to get injured, anesthetized or recovering dogs from your vehicle to your home or medical facility. The flexible pet transport stretcher can easily be handled by one or more people in small spaces like stairs, cars, and tight corners.

Features:

- Safe and easy way to transport pet in the event of an emergency, illness, injury or disability
- Six comfortably padded handles
- Heavy-duty, machine-washable nylon fabric that won't rip or tear and folds up and stores easily when not in use
- An adjustable safety strap with buckle closure for extra security and support for your pet
- Lightweight and compact, easy to fold/roll for comfortable carry
- Lift and protect pets up to 80kg
- Keep in vehicle for emergency use
- Available in gray and blue color
- Dimension : 120cm L x 60cm W

► Rigid Stretcher

RS-102

The main body of our pet stretcher is made of high-strength steel tubing, sturdy and durable. This pet stretcher is suitable for home emergency stockpiling and pet hospital first aid. Assists in moving dogs, cats and other pets easily to avoid secondary injuries.

Features:

- With or without wheels (optional)
- 4 feet welded to frame provide standoffs for slip fingers under the stretcher to lift it off the floor
- Quipped with two wheels on one end or both side (optional)
- Recovery blanket for time of hypothermia
- Stainless steel structure
- Heavy-duty reinforced nylon
- One straps with buckles can be used to hold patient in position
- Dimension : 120cm L x 60cm W x 15cm H

► Rigid Stretcher With Trolley

RST-103

The top of the Rigid stretcher with trolley is a removable rigid stretcher that makes it easy to lift and lower heavier dogs and reduces back injuries. Holes on the ends of the stretcher fit over posts on the cart. The stretcher is held securely yet lifts off quickly. with a rigid stretcher with trolley, take the stretcher to where the patient is, whether it's in the back of a vehicle or on the floor and you slide the patient onto the stretcher. This means no more awkward lifting of active patients, a major source of back injuries.

Features:

- Comfortable transportation, quick and easy carry with casters
- Baked powder coated iron or stainless steel structure(optional)
- Sturdy all welded construction
- Safety transports dogs up to 80kg with less effort
- A large shelf for supplies, is also useful when you need to transport supplies along with a patient
- A raised lip around the shelf to prevent supplies from falling off
- Comfortable 100cm height
- Steering handles on both ends of trolley
- Dimension : 120cm L x 60cm W x 90cm H
